The sheriff turned in \$16,065.58 to the county treasurer during the year 1891, being the amount of licenses and fines collected by his office.

The Board of Supervisors transacted very little business yesterday, owing to the enforced absence of the district attorney at Benson and Fairbank.

Lang's band of cattle have had hard work getting across the river. Fifteen head stuck in the mud one day and were captured by the Indians. About forty head have been lost.—Times.

Be wise in time. You have too many gray hairs for one so young looking. Use Hall's Hair Renewer, the best preparation out to cure them. Try it.

The Star publishes the startling announcement that 100 men are at work on the T. M. & M. Co's properties. Two hundred would have been nearer the mark.

According to the recent report of the postmaster-general, there were in Arizona, June 30, 1891, 186 postoffices and in 107 of these the receipts were all absorbed by compensation of postmasters.

Whooping cough, croup, sore throat, sudden colds, and lung troubles peculiar to children, are easily controlled by promptly administering Ayer's Cherry Pectoral. This remedy is safe to take, certain in its action, and adapted to all constitutions.

The Stockman is wrong in saying that its bid for doing the county advertising, etc., was the lowest bid before the Board of Supervisors. The bid of the Enterprise was to do the work for nothing, but the law would not allow the Board to take advantage of this liberal offer.

### The Sequel.

The Prospector gave an account of the recent trouble at Lordsburg, wherein "Arkansas" alias Black held a train two hours by preventing the operator from getting orders for the train, which, by the way, carried the U. S. mail. Warrants were issued for the arrest of Arkansas. One day last week he turned up in Lordsburg to see how things were going on around the telegraph office. The Liberal tells the balance of the story:

"The warrant that had been issued for him was in the hands of the sheriff at Silver City, and so he could not be arrested. On Wednesday evening he tackled Judge Titus, who was unarmed, in Robert & Leahy's store, and said he had been informed that the judge had called his wife a certain opprobrious name, and as a punishment therefor, hit the judge over the head with his six shooter. There was naturally considerable commotion. Chas. Stevens drew Black off and got him away.

Judge Titus issued a warrant for Black's arrest on the charge of an assault with a deadly weapon, returnable before Judge Field at Deming. Constable App arrested him, and accompanied by Judge Titus and a drummer who happened to be present and saw the fracas, went to Deming that night. Before Judge Field he waived examination, and he was put under five hundred dollars bail to await the action of the grand jury.

### La Grippe.

The tendency of this disease toward pneumonia is what makes it dangerous. La Grippe requires precisely the same treatment as a severe cold, Chamberlain's Cough Remedy is famous for its cures of severe cold. This remedy effectually counteracts the tendency of the disease to result in pneumonia, provided that proper care be taken to avoid exposure when recovering from the attack. Careful inquiry among the many thousands who have used this remedy during the epidemics of the past two years has failed to discover a single case that has not recovered or that has resulted in pneumonia. 50 cent and \$1 bottles for sale by H. J. Peto.

S. R. DeLong has been appointed a notary public for Cochise county, with residence at Dos Cabezas.

"Now is the winter of our discontent made glorious summer" by Ayer's Sarsaparilla. This wonderful medicine so invigorates the system and enriches the blood that cold weather becomes positively enjoyable. Arctic explorers would do well to make a note of this.

With Dos Cabezas, Dragoon, Turquois, Bisbee and Huachuca producing as some are now, and all will be before six months have passed, Tombstone will feel her oats. We are the hub to which the spokes lead from the periphery of the Cochise county wheel of fortune.

The Can Can will provide one of its famous Sunday dinners tomorrow to which the public generally is invited. The Lord loveth a cheerful giver, and the cheerfulness with which the table is spread on Sunday with the cream of the market, will not be lost on the public or in the hereafter.

All wool, 3-ply carpet 90cts at Eucher Gress.

The mill at the San Pablo mine, Nacozari, Sonora, started up and ran a half day last week as a trial of the machinery. Everything worked to perfection. The process is that of lixiviation and everything is in readiness to start as soon as the arrival of 60 tons of salt which is being freighted from Station 30 on the Bisbee road. A great future is predicted for this great producer. The mine has been systematically opened to the 300 level and there is ore in sight above that depth to keep the mill running three years.

### The Result of Merit.

When anything stands a test of fifty years among a discriminating people like the Americans, it is pretty good evidence that there is merit somewhere. The value of a medicine is best proved by its continued use from year to year by the same persons and families, as well as by a steadily increasing sale. Few, if any, medicines have met with such continued success and popularity as BRANDRETH'S PILLS, which, after a trial of over fifty years, are conceded to be the safest and most effective purgative introduced to the public.

That this is the result of merit, and that BRANDRETH'S PILLS actually perform all that is claimed for them, is conclusively proved by the fact that those who regard them with the greatest favor are those who have used them the longest.

BRANDRETH'S PILLS are sold in every drug and medicine store, either plain or sugar coated.

John Slaughter threatened to sue the county for \$2228.78 which he claimed was due him for back mileage under a recent decision of Judge Sloan in the case of Kelton vs the county. The board compromised the threatened suit this afternoon by drawing a warrant in his favor for \$823.65 which will be given him as soon as a full receipt is given.

THE Laredo Times is disgusted with the Garza craze and says: "About 250 Texas cowboys mounted on Texas ponies and well armed would prove more effective in exterminating Garza and his band of filibusters from American soil than 10,000 United States soldiers mounted on heavy cavalry horses."

### CURIOUS NAMES AND PHRASES.

"COOTER" is what they call terrapin in Florida.

NEVADA, Mo., has a citizen named De Spair, and with that name he got married recently.

In addition to its relation to stray bovines the word "Maverick" is used as a verb, meaning to dishonestly appropriate.

"SIMLIN HEAD" is the latest journalistic amenity in Kansas. A simlin is a very empty and unsatisfactory variety of gourd.

A DRUGGIST in the town of Plain Dealing, La., bears the name of Swindle, but it was conferred by chance, not intention, and it is not descriptive of personal character, says Pharmaceutical Era.

THERE is a farmer in Ventura county, Cal., whose name is Stubblefield, and another named Haymaker. Los Angeles, Cal., has still another honest granger who bears the euphonious name of John Beamblossom.

TENNYSON was much irritated during a recent interview by his visitor's continually pronouncing "Ralph" in the common English fashion, so as to rhyme with "safe." At length he sharply corrected the speaker, emphatically pounding on the table meantime. But he declared that the name should rhyme with "laugh" and "chaff."

### WISDOM FROM "SIFTINGS."

THE waste basket is mightier than the pen.

HUMOR is the dream of those who are awake.

HUMOR is the oil of wine of merry greeting.

If you cannot lick a man be lenient with his faults.

THE barking dog never bites—at least while he is barking.

ABOUT the only force some people have is the force of habit.

A WOMAN'S glory is in her hair, but it is a good plan to tie it up when cooking.

In this world a man wants a good balancing pole to walk the narrow path.

It is as easy to tell a lie as it is to tell the truth, but it is not half so lonesome.

YOUNG ladies and young men, too, had better be fast asleep than fast awake.

TOO MANY cooks may spoil the broth, but there are too many cooks who have no broth to spoil.

WHEN a man dies and leaves a nice young widow with plenty of money, and you see her walking out with the executor on a Sunday afternoon, a change is imminent.

### PERSONAL PARTICULARS.

NELSON OLSON, a rich Swede living near Monett, Mo., killed himself because his wife wouldn't make bread to suit him.

MRS. KATE HOWELL, aged 102, is the oldest woman in Wayne county, N. C. Her husband died thirteen years ago at the age of 91.

E. A. WHITE, of Boston, who died a few days ago, left about \$500,000 to his widow and an umbrella to his daughter's husband.

BLACK, blue and hazel eyes, a blonde and a brunette complexion, dimples and sound lungs have been variously accredited to Baby Ruth Cleveland, by imaginative newspaper reporters.

LUCY McCLURE is a moonshiner who has been defying the revenue officers of West Virginia. Bright, smart and handsome, ready with the rifle, and as daring as she was clever, she had for a long time upset every scheme to capture her.

### A LITTLE OF EVERYTHING.

TWO MATS owned by the shah of Baroda are worth \$2,500,000.

It takes 1,000,000 pounds of ink every year to print Uncle Sam's paper money and revenue stamps.

BULL-FIGHTS are still the popular amusement in Venezuela. Nearly every city has its rings and its coterie of bull-fighters.

THE Mohawk Indians will not permit even so much as a blade of grass to grow upon the graves of their companions.

THE trip to Alaska is made almost entirely on inland waters. The entire coast of British Columbia is lined with islands and between these and the mainland is a navigable channel.

THE camera and an ordinary oil lamp are now being used to produce photographs of the indicator cards in steam engines, by which the working of the engines can be seen and studied at all times.

### TOLD OF THE UNKNOWN.

A CHESTERFIELD (Va.) man recently killed a deer with his pocketknife.

MASSACHUSETTS has a woman hermit who has \$128,000 concealed about her home.

A MAN in Missouri has twenty-seven pet rattlesnakes which come when he calls them.

A BLACK HILLS miner recently discovered in a vein of quartz a single pocket from which he is said to have taken out over seven thousand dollars' worth of gold in two days.

AN Illinois man threw himself in front of a fast train on the Big Four railroad near Middlesworth, with the hope that the railroad officials would compromise damages by giving him an annual pass over the line.

### SIGNS.

If a bird is caught by a cat, it is a sure sign of bad luck—that is, for the bird.

### Almost Dead.

On Dec. 21st an old man named H. Pinkerton, living near Hooker's Hot Springs, left Benson for home. He owns in the neighborhood of 2,000 head of sheep. He did not arrive at his destination, and his friends made inquiries about him without determining his whereabouts. A few days ago a party left Benson in search of him, and after a tedious tramp came upon the unfortunate man almost at death's door. He had resigned himself to fate, and upon a piece of paper had made his will. He was brought back, and is thought to be out of danger, although weak from lack of food and water. He has not been able to tell how he became lost.

Mollie Herbert a resident for many years of the prescribed quarter of Tombstone, was found lying on her back across a chair this morning, dead. She was last seen alive at ten o'clock last night. She had been sick for some time. She was 51 years of age and came from Mauch Chunk, Penn., where she has two daughters living. A coroner's jury failed to gather any evidence regarding the cause of her demise, and an autopsy is being held as we go to press, by Dr. Hamilton. The jury will hear his evidence at Justice Johnston's court at 7 o'clock tonight.

From the Herald the PROSPECTOR learns that the Maricopa supervisors decided against County Treasurer Rosson's claim to three per cent commissions, and ordered him to return the excess of one half of one per cent to the various funds entitled thereto. The treasurer appeared before the board and announced his submission to their decree, under protest, however, so that the point may be reviewed hereafter at any proper opportunity.
